THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA

DOCKET NO. 2011-47-WS

IN RE: Application of Carolina Water)	
Service, Inc. for adjustment of)	
rates and charges and modification)	APPLICATION
of certain terms and conditions)	
for the provision of water and sewer)	
service)	

Carolina Water Service, Inc (“Applicant” or “Company”) would respectfully show unto, and request of, the Commission as follows:

BACKGROUND

1. The Applicant is a corporation organized and existing under the laws of the State of Delaware and authorized to do business in the State of South Carolina.

2. The Applicant is a public utility, as defined by S.C. Code Ann. §58-5-10(4), providing water and sewer service to the public for compensation in certain areas of South Carolina pursuant to rates approved by the Commission in Docket No. 2006-92-W/S.

3. All communications or inquiries regarding this Applicant should be directed as set forth below:

- a. **Applicant’s Representative:**
Ms. Kirsten Weeks

REQUEST FOR RATE RELIEF AND RATE SCHEDULE MODIFICATIONS

4. Pursuant to S.C. Code Ann. §58-5-240 and 26 S.C. Code Ann. Regulations. RR. 103-712.4.A and 103-512.4.A, The Applicant requests that the Commission approve an increase in its monthly water and sewer service charges, in its water and sewer account set-up charges and its sewer notification fee as set forth in the nine (9) page rate schedule attached hereto and incorporated herein by this reference as Exhibit "A". Also, pursuant to 26 S.C. Code Ann. Regulations RR. 103-703 and. 103-503, Applicant proposes to include in its tariff a charges to recover its costs of disconnecting it customers from its facilities in certain circumstances, to recover its costs of repair of its water and sewer facilities which have been damaged by tampering, to recover its costs of pumping its customer's interceptor tanks and for the installation of water meters. Last the Applicant has proposed to modify certain language clarifying the purpose of existing rates for the benefit of its customers.

SUPPORTING DOCUMENTATION

5. The Applicant proposes a test year of October 1, 2009 to September 30, 2010 and has prepared certain financial statements relating to that time period in support of the Application, which statements are attached hereto and incorporated herein by this reference as Exhibit "B", pages 1 through 11. These financial statements include the following:

- a. Balance Sheet (Schedule A)
- b. Current and pro forma income and expense statements (Schedule B),
and
- c. Rate base and resulting rate of return calculations based upon
proposed rates (Schedule C).¹

The Applicant also submits, as Exhibit "B" pages 12 through 20, the following information in support of the Application:

- d. Test year water and sewer revenue at current rates (Schedule D),
- e. Water and sewer revenues at proposed rates (Schedule E),
- f. Average residential bill at present and proposed rates (Schedule F),
and
- g. Schedule of current and projected customers (Schedule G)

6. Attached hereto and incorporated herein by this reference as Exhibit "C" is the most recent approval letter from the South Carolina Department of Health and Environmental Control ("DHEC").

¹ These calculations are for informational purposes only as Applicant will submit evidence with respect to proper returns on equity and rate base at hearing.

7. Attached hereto and incorporated herein by this reference as Exhibit "D" is the Company's current customer bill form.

8. There is on file with this Commission and the Office of Regulatory Staff ("ORS") a performance bond given to satisfy the requirements of S.C. Code Ann. §58-5-720.

9. A map depicting Applicant's current service area is on file with the Commission and ORS.

10. The financial statements, the other documents submitted herewith, and the references to documents on file with the Commission are offered to comply with Commission Rules R.103-512.4 and R. 103-712.4 and to provide information useful to the Commission in considering the reasonableness of the proposed rate schedule.²

NEED AND JUSTIFICATION FOR RATE RELIEF AND RATE SCHEDULE MODIFICATIONS

11. The Applicant submits that the proposed water and sewer rate increases are necessary to permit it to provide reasonable and adequate service to its customers. The rates proposed are also necessary to comply with standards and regulations set by DHEC and other governmental agencies which regulate the environmental aspects of Applicant's business. Applicant further submits that the proposed rates are necessary to enable it to earn a reasonable return on its investment and to attract capital for future improvements. Said rates will preserve the financial integrity of the Applicant, promote continued investment in and maintenance of its facilities, and thereby permit Applicant to continue providing reliable and high quality water and sewer services.

² Because Applicant utilizes a composite depreciation rate of 1 ½%, no depreciation schedule by categories of plant or average service lives exists. The Applicant will, of course, make available during the audit in this case copies of the Company's depreciation workpapers.

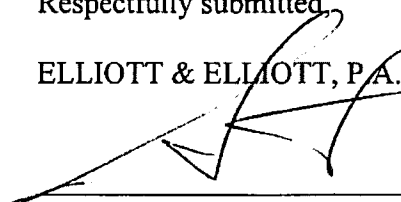

REQUEST FOR RATE BASE TREATMENT

12. Applicant further submits that given its substantial plant investment, and specifically the rate base reflected on Schedule C of Exhibit "B", Applicant is entitled to have the reasonableness of its proposed rates determined in accordance with the rate of return on rate base methodology. Accordingly, Applicant requests rate base treatment in this proceeding.

WHEREFORE, having fully set forth its Application, Carolina Water Service, Inc. prays that the Commission approve the rates proposed and grant to Applicant such other and further relief as the Commission may deem just and proper.

Respectfully submitted,

ELLIOTT & ELLIOTT, P.A.

DOCKET NO. 2011-47-WS
PROPOSED RATE SCHEDULE

CAROLINA WATER SERVICE, INC.

SCHEDULE OF RATES AND CHARGES
WATER

1. Monthly Charges

Residential

Base Facilities Charge per single family
house, condominium, mobile home or
apartment unit: \$19.87 per unit

Commodity charge: \$6.49 per 1,000
gallons or 134 cft

Commercial

Base Facilities Charge
by meter size:

5/8" meter	\$ 19.87
1"	\$ 51.99
1.5"	\$103.98
2"	\$166.36
3"	\$311.93
4"	\$519.89

Commodity Charge: \$6.49 per 1,000
gallons or 134 cft

Charges for Water Distribution Only

Where water is purchased from a government body or agency or other entity for
distribution and resale by the Company, the following rates apply:

Residential

Base Facilities Charge per single family
house, condominium, mobile home
or apartment unit: \$19.87 per unit

Commodity charge: \$3.71 per 1,000

EXHIBIT "A"

gallons or 134 cft

Commercial
Base Facilities Charge
by meter size:

5/8" meter	\$ 19.87
1"	\$ 51.99
1.5"	\$103.98
2"	\$166.36
3"	\$311.93
4"	\$519.89

Commodity charge: \$3.71 per 1,000
gallons or 134 cft

The Utility will also charge for the cost of water purchased from the government body or agency, or other entity. The charges imposed or charged by the government body or agency, or other entity providing the water supply will be charged to the Utility's affected customers on a pro rata basis without markup. Where the Utility is required by regulatory authority with jurisdiction over the Utility to interconnect to the water supply system of a government body or agency or other entity and tap/connection/impact fees are imposed by that entity, such tap/connection/impact fees will also be charged to the Utility's affected customers on a pro rata basis, without markup.

Commercial customers are those not included in the residential category above and include, but are not limited to hotels, stores, restaurants, offices, industry, etc.

The Utility will, for the convenience of the owner, bill a tenant in a multi-unit building, consisting of four or more residential units (or in such other circumstances as the law may allow from time to time), which is served by a master water meter or a single water connection. However, in such cases all arrearages must be satisfied before service will be provided to a new tenant or before interrupted service will be restored. Failure of an owner to pay for services rendered to a tenant in these circumstances may result in service interruptions.

When, because of the method of water line installation utilized by the developer or owner, it is impractical to meter each unit separately, service will be provided through a single meter, and consumption of all units will be averaged; a bill will be calculated based on that average and the result multiplied by the number of units served by a single meter.

2. Nonrecurring Charges

A) Water Service Connection (New connections only) \$300 per SFE*

EXHIBIT "A"

Water Service Connection Fees include the cost to physically install the Utility's service line from its main to the customer's premises which then will be used to provide service to the new customer as authorized by Commission Rule R103-702.10.

B) Plant Impact Fee (New connections only) \$400 per SFE*
The Plant Capacity Fee reflects the portion of plant capacity which will be used to provide service to the new customers as authorized by Commission Rule R. 103-702.13. Plant capacity shall be computed by using the South Carolina DHEC "Guide Lines for Unit Contributory Loadings to Wastewater Treatment Facilities" (1972) to determine the single family equivalency rating. The plant capacity fee represents the Utility's investment previously made (or planned to be made) in constructing water production, treatment and/or distribution facilities that are essential to provide adequate water service to the new customer's property.

C) Water Meter

5/8 inches x 3/4 inches meter \$100

All meters 5/8 inches x 3/4 inches shall meet the Utility's standards and shall be installed by the developer. A one-time fee of \$100 shall be due upon installation.

For the installation of all other meters, the customer shall be billed for the Utility's actual cost of installation. All such meters shall meet the Utility's standards and be installed by the Utility unless the Utility directs otherwise.

3. Account Set-Up, Reconnection Charges, Disconnection Charges and Tampering Charges

A) Customer Account Charge - for new customers only.

B) All Areas \$30.00

C) Reconnection Charges: In addition to any other charges that may be due, a reconnection fee of thirty five dollars (\$35.00) shall be due prior to the Utility reconnecting service which has been disconnected for any reason set forth in Commission Rule R.103-732.5. Customers who ask to be reconnected within nine months of disconnection will be charged the monthly base facility charge for the service period they were disconnected. The reconnection fee shall also be due prior to reconnection if water service has been disconnected at the request of the customer.

D) Disconnection Charge: In addition to any other charges that may be due, in those cases where a customer's service has been disconnected for any reason as set forth in Commission Rule R.103-732.5, and the customer is found to have vacated his premises or the customer has shown his intent to vacate his premises and the imposition of a reconnection charge is not feasible, a disconnection fee in the amount of the Utility's actual cost of disconnection shall be due at the time the customer disconnects service.

EXHIBIT "A"

E) Tampering Charge: In the event the Utility's equipment, water mains, water lines, meters, curb stops, service lines, valves or other facilities have been damaged or tampered with by a customer, the Utility may charge the customer responsible for the damage to the Utility's the actual cost to repair its facilities.

4. Billing Cycle

Recurring charges will be billed monthly in arrears. Nonrecurring charges will be billed and collected in advance of service being provided.

5. Extension of Utility Service Lines and Mains

The Utility shall have no obligation at its expenses to extend its utility service lines or mains in order to permit any customer to connect to its water system. However, anyone or any entity which is willing to pay all costs associated with extending an appropriately sized and constructed main or utility service line from his/her/its premises to any appropriate connection point, to pay the appropriate fees and charges set forth in this rate schedule, and comply with the guidelines and standards hereof, shall not be denied service, unless water supply is unavailable or unless the South Carolina Department of Health and Environmental Control or other government entity has restricted the Utility from adding for any reason additional customers to the serving water system. In no event will the Utility be required to construct additional water supply capacity to serve any customer or entity without an agreement acceptable to the Utility first having been reached for the payment of all costs associated with adding water, water supply capacity to the affected water system.

6. Cross Connection Inspection Fee

Any customer installing, permitting to be installed, or maintaining any cross connection between the Utility's water system and any other non-public water system, sewer or a line from any container of liquids or other substances, must install an approved back-flow prevention device in accordance with 24A S.C. Code Ann. Regs. R.61-58.7.F.2, as may be amended from time to time. Such a customer shall annually have such cross connection inspected by a licensed certified tester and provide to Utility a copy of a written inspection report and testing results submitted by the certified tester in accordance with 24A S.C. Code Ann. Regs. R.61-58.7.F.8, as may be amended from time to time. Said report and results must be provided by the customer to the Utility no later than June 30th of each year. Should a customer subject to these requirements fail to timely provide such report and results, Utility may arrange for inspection and testing by a licensed certified tester and add the charges incurred by the Utility in that regard to the customer's next bill.

EXHIBIT "A"

*A Single Family Equivalent (SFE) shall be determined by using the South Carolina Department of Environmental Control Guidelines for Unit Contributory Loadings for Domestic Wastewater Treatment Facilities -- 25 S.C. Code Ann. Regs. 61-67 Appendix A, as may be amended from time to time. Where applicable, such guidelines shall be used for determination of the appropriate monthly service and tap fee.

EXHIBIT "A"

SCHEDULE OF RATES AND CHARGES

SEWER

1. Monthly Charges

Residential - charge per single-family house, condominium, villa, or apartment unit:	\$44.32 per unit
Mobile Homes:	\$31.56 per unit
Commercial:	\$44.32 per SFE*

Commercial customers are those not included in the residential category above and include, but are not limited to, hotels, stores, restaurants, offices, industry, etc.

Charge for Sewer Collection Only

When sewage is collected by the Utility and transferred to a government body or agency, or other entity, for treatment, the Utility's rates are as follows:

Residential - per single-family house, condominium, or apartment unit	\$29.20 per unit
Commercial - per single-family equivalent	\$29.20 per SFE*
Charge for Wholesale Service (Midlands Utility)	\$18.78 per SFE*

The Utility will also charge for treatment services provided by the government body or agency, or other entity. The rates imposed or charged by the government body or agency, or other, entity providing treatment will be charged to the Utility's affected customers on a pro rata basis, without markup. Where the Utility is required under the terms of a 201/208 Plan, or by other regulatory authority with jurisdiction over the Utility, to interconnect to the sewage treatment system of a government body or agency or other entity and tap/connection/impact fees are imposed by that entity, such tap/connection/impact fees will be charged to the Utility's affected customers on a pro rata basis, without markup.

The Utility will, for the convenience of the owner, bill a tenant in a multi-unit building, consisting of four or more residential units (or in such other circumstances as the law may allow from time to time), which is served by a master sewer meter or a single sewer connection. However, in such cases all arrearages must be satisfied before service will be provided to a new tenant or before interrupted service will be

EXHIBIT "A"

restored. Failure of an owner to pay for services rendered to a tenant in these circumstances may result in service interruptions.

Solids Interceptor Tanks

For all customers receiving sewage collection service through an approved solids interceptor tank, the following additional charges shall apply:

A. Pumping Charge

At such time as the Utility determines through its inspection that excessive solids have accumulated in the interceptor tank, the Utility will arrange for pumping the tank and the actual cost to the utility of pumping the tank will be billed to the customer; the minimum pumping charge shall be \$150.00. The cost of the Utility's pumping charge will be included as a separate item in the next regular billing to the customer.

B. Pump Repair or Replacement Charge

If a separate pump is required to transport the customer's sewage from solids interceptor tank to the Utility's sewage collection system, the Utility will arrange to have this pump repaired or replaced as required and will include the cost of such repair or replacement as a separate item in the next regular billing to the customer and may be paid for over a one year period.

C. Visual Inspection Port

In order for a customer who uses a solids interceptor tank to receive sewage service from the Utility or to continue to receive such service, the customer shall install at the customer's expense a visual inspection port which will allow for observation of the contents of the solids interceptor tank and extraction of test samples therefrom. Failure to provide such a visual inspection port after timely notice of not less than thirty (30) days shall be just cause for interruption of service until a visual inspection port has been installed.

2. Nonrecurring Charges

- A) Sewer Service Connection (New connection only) \$300 per SFE*
Sewer Service Connection fees include the cost to physically install the utility's service line from its main to the customer's premises which then will be used to provide service to the new customer as authorized by Commission Rule R. 103-502.10.
- B) Plant Capacity Fee (New connections only) \$400 per SFE*
The Plant Capacity Fee shall be computed by using South Carolina DHEC "Guide Lines for Unit Contributory Loadings to Wastewater Treatment Facilities" (1972) to determine the single family equivalency ratings. The plant capacity fee represents the Utility's investment previously made (or planned to be made) in constructing treatment and/or collection system facilities that are essential to provide adequate treatment and disposal of the wastewater generated by the development of the new property.

EXHIBIT "A"

The nonrecurring charges listed above are minimum charges and apply even if the equivalency rating of a non residential customer is less than one (1). If the equivalency rating of a non residential customer is greater than one (1), then the proper charge may be obtained by multiplying the equivalency rating by the appropriate fee. These charges apply and are due at the time new service is applied for, or at the time connection to the sewer system is requested.

3. Notification, Account Set-Up, Reconnection Charges, Disconnection Charges and Tampering Charges

A) Notification Fee

A fee of fifteen dollars (\$15.00) shall be charged each customer to whom the Utility mails the notice as required by the Commission Rule R. 103-535.1 prior to service being discontinued. This fee assesses a portion of the clerical and mailing costs of such notices to the customers creating the cost.

B) Customer Account Charge - for new customers only.

All Areas

\$30.00

A one-time fee to defray the costs of initiating service. This charge will be waived if the customer also takes water service.

C) Reconnection Charges: In addition to any other charges that may be due, a reconnection fee of two hundred fifty dollars (\$250.00) shall be due prior to the Utility reconnecting service which has been disconnected for any reason set forth in Commission Rule R.103-532.4. Where an elder valve has been previously installed, a reconnection charge of thirty-five dollars (\$35.00) shall be due. Customers who ask to be reconnected within nine months of disconnection will be charged the monthly service charge for the service period they were disconnected.

D) Disconnection Charge: In addition to any other charges that may be due, in those cases where a customer's service has been disconnected for any reason as set forth in Commission Rule R.103-532.4, and the customer is found to have vacated his premises or the customer has shown his intent to vacate his premises and the imposition of a reconnection charge is not feasible, a disconnection fee in the amount of the Utility's actual cost of disconnection shall be due at the time the customer disconnects service. Where an elder valve has been previously installed, a disconnection charge of thirty-five dollars (\$35.00) shall be due.

E) Tampering Charge: In the event the Utility's equipment, sewerage pipes, meters, curb stops, service lines, elder valves or other facilities have been damaged, tampered with

EXHIBIT "A"

or molested by a customer, the Utility may charge a customer in any way responsible for the damage, the Utility's actual cost to repair its facilities.

4. Billing Cycle

Recurring charges will be billed monthly, in arrears. Nonrecurring charges will be billed and collected in advance of service being provided.

5. Toxic and Pretreatment Effluent Guidelines

The Utility will not accept or treat any substance or material that has been defined by the United States Environmental Protection Agency ("EPA") or the South Carolina Department of Health and Environmental Control ("DHEC") as a toxic pollutant, hazardous waste, or hazardous substance, including pollutants falling within the provisions of 40 CFR 129.4 and 401.15. Additionally, pollutants or pollutant properties subject to 40 CFR 403.5 and 403.6 are to be processed according to the pretreatment standards applicable to such pollutants or pollutant properties, and such standards constitute the Utility's minimum pretreatment standards. Any person or entity introducing any such prohibited or untreated materials into the Company's sewer system may have service interrupted without notice until such discharges cease, and shall be liable to the Utility for all damages and costs, including reasonable attorney's fees, incurred by the Utility as a result thereof.

6. Extension of Utility Service Lines and Mains

The Utility shall have no obligation at its expense to extend its utility service lines or mains in order to permit any customer to discharge acceptable wastewater into one of its sewer systems. However, anyone or any entity which is willing to pay all costs associated with extending an appropriately sized and constructed main or utility service line from his/her/its premises to an appropriate connection point, to pay the appropriate fees and charges set forth in this rate schedule and to comply with the guidelines and standards hereof, shall not be denied service, unless treatment capacity is unavailable or unless the South Carolina Department of Health and Environmental Control or other government entity has restricted the Utility from adding for any reason additional customers to the serving sewer system.

In no event will the Utility be required to construct additional wastewater treatment capacity to serve any customer or entity without an agreement acceptable to the Utility first having been reached for the payment of all costs associated with adding wastewater treatment capacity to the affected sewer system.

*A Single Family Equivalent (SFE) shall be determined by using the South Carolina Department of Environmental Control Guidelines for Unit Contributory Loading for Domestic Wastewater Treatment Facilities -- 25 S.C. Code Ann. Regs. 61-67 Appendix A, as may be amended from time to time. Where applicable, such guidelines shall be used for determination of the appropriate monthly service and tap fee.

Carolina Water Service
Explanation of Adjustments to Income Statement

Schedule B
Page 4 of 4

EXHIBIT B
Page 5

- [a] Intentionally left blank.
- [b] Revenues are adjusted to tie to consumption data at current rates.
- [c] Uncollectibles are adjusted at test year percentages for annualized revenues.
- [d] Salaries, wages and benefits are adjusted for annualization for employees working at or for CWS as of current. In addition, salaries, wages, and benefits have been adjusted for the cost of living increase occurring early in 2011. Finally, operating expense charged to plant has been adjusted to reflect an increase in operator salaries, payroll taxes, and benefits.
- [e] Transportation expense is adjusted to reflect the various accurate allocation percentages for employees whose salaries are assigned to CWS.
- [f] Regulatory expense has been adjusted for the total estimated cost of this case, amortized over three years.
- [g] Depreciation and amortization expense are annualized to reflect actual and estimated pro forma plant and general ledger additions.
- [h] Taxes other than income are adjusted to annualize gross receipts, utility or commission taxes, and franchise taxes at present and proposed revenues. Taxes other than income also includes payroll taxes adjusted for the estimated salary increase.
- [i] Income taxes are computed on taxable income at current rates.
- [j] AFUDC is eliminated for rate making purposes.
- [k] Interest on debt has been computed using a 50.11%/49.89% debt/equity ratio and a 6.60% cost of debt.

Carolina Water Service
Explanation of Adjustments to Rate Base and Rate of Return

[a] Intentionally left blank.

[b] Gross plant in service is adjusted to reflect adjusted vehicles, allocated by the various accurate allocation percentages for CWS.

[c] Accumulated depreciation is adjusted to reflect adjusted vehicles, allocated by the various allocation percentages for CWS.

[d] Cash working capital is calculated based on 1/8 of maintenance and general expenses, as well as taxes other than income.

[e] A pro forma adjustment has been made to include actual/estimated pro forma plant and general ledger additions.

[f] The Return on Rate Base shown above is provided solely as a matter of information and convenience for the Commission and is not intended to reflect a request for this specific return on rate base (or any return on equity). Applicant will make its request for a return on rate base (and return on equity) by way of evidence to be introduced at hearing.

RE: Carolina Water Service: Your letter of March 31, 2011
PSC Rate Case

Dear Mr. Elliott:

This letter serves to confirm that the systems on the following page have all the valid DHEC permits needed to operate.

I can be reached at 803-898-4157 or at debessjp@dhec.sc.gov.

Sincerely,

Jeffrey P. deBessonnet, P.E., Director
Water Facilities Permitting Division

cc: Shawn Clarke
